

1-2KG MINI GOLD MELTING FURNACE

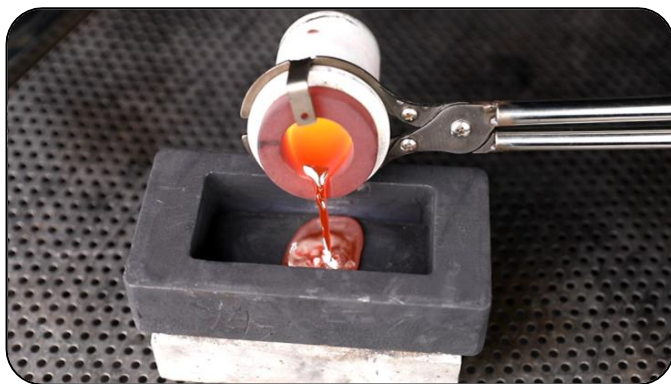

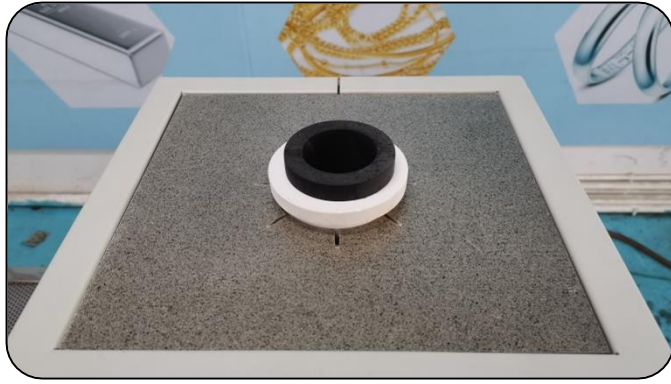

Details

Operation panel

Product show

Parameter	
Model number	CDO-GMF1
Voltage	Single P,220V \pm 10%
Power	5 kw
Capacity	Gold/Silver: 1-2kg
Max temperature	1650℃
Melting time	3-5 min
Weight	28 kg
Dimension（LWH）	300*300*400mm

Feature

- 1: The IGBT Technology can save 15-30% energy than the KGPS technology with full load.
- 2: Easy installation and convenient maintenance according with the video or operation manual from CDOCAST.
- 3: 1 Square meter or more less space for the furnace occupied.
- 4: Easy exchange the crucible if you melting different metal.
- 5: 24 hours continuously working on duty with full load.
- 6: low pollution, low noise and low power consumption.
- 7: The metal furnace with full protection switch like over voltage, over-current, over-heating etc. for avoid error operation.
